

SCA Echo Program Planning Committee

Committee Charge

The mission of the SCA Echo Program Planning Committee is to maintain the quality of the scientific content of the meeting and ensures consistency, continuity, and balance in the programming.

The goals of the SCA Echo Program Planning Committee are to develop a program for the Annual Comprehensive Echocardiography Meeting which includes a foundation of basic, fundamental echocardiographic principles primarily via enduring online content and in person series of lectures and workshops which focus on the utility of echocardiography and its impact on multidisciplinary perioperative decision-making.

2024-25 Benchmarks

(Action items for upcoming year)

1. Review and update core series
2. Formulate a plan of continuity for SCA Echo Board Review
3. Establish a formal process and system for leadership terms and turnover
4. Finalize preliminary schedule by end of annual meeting
5. Establishment of 2 webinars to be presented in 3rd and 4th quarter of 2024
6. Re-explore the format of the SCA Echo conference for the future meetings (hybrid vs in-person, 3-day vs 4-day, meeting location)

2024-25 Committee Members
