### Accreditation Statement

The Society of Cardiovascular Anesthesiologists is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The Society of Cardiovascular Anesthesiologists designates this live material activity for a maximum of 36.50 *AMA PRA Category 1 Credits*<sup>™</sup> Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Maintenance of Certification in Anesthesiology<sup>™</sup> program and MOCA<sup>®</sup> are registered trademarks of The American Board of Anesthesiology<sup>®</sup>.

### CREDIT DESIGNATION

This activity offers up to 36.50 CME credits, of which 24.25 credits contribute the patient safety CME component of the American Board of Anesthesiology's redesigned Maintenance of Certification in Anesthesiology<sup>™</sup> (MOCA<sup>®</sup>) program, known as MOCA 2.0<sup>®</sup>. Please consult the ABA website, [www.theABA.org](http://www.theABA.org), for a list of all MOCA 2.0 requirements.

**Description:**

Annual subspecialty society meeting that presents education and research offerings for cardiovascular anesthesiologists. Teaching modalities include didactic lectures, interactive panel discussions, presentations of scientific work, workshops with hands on experiences, and small group discussions (Problem Based Learning Discussions). Many sessions and panel discussions are comprised of multidisciplinary faculty, including experts in the field of Cardiothoracic surgery, Thoracic surgery, Cardiology as well as Cardiac Anesthesiology. Specific topics include Structural Heart Procedures, Enhancing recovery after cardiac surgery, updates on relevant clinical guidelines, Malpractice Discussions, Adult Congenital Heart Disease, Transplantation, Echocardiography, Mechanical Circulatory Support, Management of Heart Failure, and diversity and inclusivity.

**Educational Information****Physician Practice Gap:**

A gap in physician performance in echocardiography and knowledge base in cardiothoracic anesthesiology will be addressed. This conference addresses several current gaps in cardiac anesthesiology: communication and teamwork in the cardiac surgical workplace, professional advancement of anesthesiologists into leadership positions and in academia, advanced echocardiography and point of care ultrasound technique, and up to date clinical information and best practices in cardiothoracic anesthesiology practice.

**Needs that Underlie the Gap**

Interpret and extrapolate current knowledge, evidence, and guidelines into anesthetic decision making for perioperative management of patients undergoing cardiac, thoracic, or vascular surgical procedures.

**DESIGNED to Change/Outcome:** Following this activity, learners will develop competence by increasing their knowledge through a combination of hands-on learning, case-based presentations, and online lectures. Knowledge will be assessed with a pre-test and post-test.

The physicians in attendance will be able to deliver a higher quality of care in cardiothoracic anesthesiology and cardiac surgical procedures by reviewing evidence-based material that has been identified as a professional practice gap, by attending workshops to improve hands-on delivery of cardiac anesthesia care, and to improve health care delivery in the cardiothoracic surgical space. Teaching modalities will include panel discussions, hands-on workshops, and problem-based learning discussions.

**Educational Objectives**

*After completing this activity, the participant should be better able to:*

- Describe the latest advances in perioperative cardiovascular medicine.
- Identify current trends in clinical and bench research pertinent to cardiovascular medicine and incorporate this knowledge into understanding of the science of cardiothoracic and vascular anesthesia.
- Evaluate new therapeutic techniques and diagnostic/interventional procedures in cardiothoracic and vascular anesthesiology.

- Discuss quality of care issues, including applicable metrics, as mechanisms to assist with quality improvement at the learner's institution and address value-based purchasing programs initiated by the federal government.
- Discuss advances in clinical echocardiography and point-of-care ultrasound and how to use them to improve outcomes in cardiac surgical patients. This will include performance of technical skills and discussion of their clinical applications.
- Acquire skills necessary for career progression and development in cardiovascular and thoracic anesthesia.

### **Satisfactory Completion**

Learners must complete an evaluation form to receive a certificate of completion. Partial credit for individual sessions is not available.

### **Contact Information**
