Welcome to Montreal, Canada and thank you for attending SCA's Thoracic Anesthesia Symposium for 2025! We're confident that you will enjoy this meeting with thought leaders providing a deep dive exploration of new topics in management challenges for thoracic surgical patients. You'll also appreciate the Hands-on workshop format – with a focus on your clinical interests and exploring what is new with an interactive experience with leaders in the field.

The Thoracic Anesthesia Symposium Planning Committee has created a program that will stimulate ideas, questions, discussion, and friendly debate. Network with other professionals in anesthesiology to help you gain insight into your practice and career.

We hope that you will take advantage of every opportunity to expand your knowledge by attending a variety of sessions and networking with the field's leading professionals. We look forward to seeing you and hope you enjoy your time in Montreal!

Best wishes,

Kathryn Glas, MD President, 2023-2025

THORACIC ANESTHESIA SYMPOSIUM & WORKSHOPS

Dear Thoracic Anesthesiology Colleagues,

Welcome to the 13th Annual Thoracic Anesthesia Symposium and Workshops! We are excited that you have joined us, and we look forward to a day filled with the mutual exchange of ideas, techniques, and advances in the field of thoracic anesthesia.

We recognize how valuable your time is and the many choices available to you for continuing medical education. The Thoracic Anesthesia Symposium Planning Committee worked tirelessly to create a program rich with educational opportunities highlighting timely information pertinent to our unique subspecialty. In addition to didactic sessions presented by international experts in thoracic anesthesia, we are excited to offer a newly updated and improved selection of Workshops featuring

hands-on experience with 3D printed and live models for regional anesthesia, a breadth and variety of airway management tools, and POCUS techniques relevant to the thoracic anesthesia provider.

This Symposium will provide you with updates on critical topics in thoracic anesthesia, enhance your learning of important techniques and skills, promote discussion and debate of controversial topics in our field, and facilitate networking. We are also pleased to offer novel research and challenging case presentations in both poster and oral presentation formats as well as a selection of new problem-based learning discussions submitted by you, our SCA members. We encourage you to engage enthusiastically, ask questions, and offer your own insights and experience!

We would like to thank our commercial sponsors for their generous and critical support of our educational program, and we encourage you to take advantage of the exhibits to familiarize yourselves with the newest clinical equipment and supplies pertinent to your thoracic anesthesia practice.

On behalf of the SCA and the 13th Annual Thoracic Anesthesia Symposium and Workshops, I am so pleased to welcome you to Montréal, Canada and the Symposium! We look forward to reconnecting with long-time colleagues and meeting new ones.

Sincerely,

Rebecca Klinger, MD, MS
