

ACTA Fellowship Program Directors Council

Committee Charge

The mission of the ACTA Fellowship Program Directors Council is to provide an organization to facilitate communication among cardiothoracic anesthesia fellowship program directors about various issues of mutual interest.

The goal is to provide an organization to facilitate communication among cardiothoracic anesthesia fellowship program directors about various issues of mutual interest. Specific duties include: to facilitate communication between fellowship program directors and outside organizations, e.g., the Residency Review Committee of the Accreditation Council for Graduate Medical Education, the Society of Academic Anesthesia Associations (Anesthesia Association of Subspecialty Program Directors), the various Society of Cardiovascular Anesthesiologists committees (education, scientific program, membership, etc.); to facilitate participation by cardiothoracic anesthesiology fellows in SCA activities such as the Annual Meeting and other educational meetings as well as in SCA committees; to promote SCA membership among cardiothoracic anesthesiology fellows that will continue after completion of fellowship; to facilitate mutual understanding among programs about fellowship recruitment; to assist programs in developing educational curricula for residents and fellows; to develop and appoint subcommittees and subcommittee chairs as needed to carry out the various activities of the Council; to advise the SCA on how to promote fellow membership and maintain future SCA membership among fellow trainees by providing services and programs that meet the needs of fellows and recent fellow graduates.

2025-26 Committee Leadership
