message

from the President

Dear Colleagues,

We invite you to join us at the Society of Cardiovascular Anesthesiologists 48th Annual Meeting and Workshops in Nashville, TN, April 23-26, 2026! We're confident that this meeting will provide countless opportunities to improve your practice and celebrate our specialty with your peers.

The educational programming is full of research, recent advancements, and innovative content designed to explore contemporary care and examine the best pathways to advance care. The Scientific Program Planning Committee created a program that will stimulate ideas, questions, discussion, and friendly debate. The conference features speakers who are anesthesiologists, surgeons, cardiologists, perfusionists, research scientists, and more; content-rich workshops that focus on skill building; daily Problem-Based Learning Discussions for small-group interaction; and scientific abstracts and challenging case presentations.

This year's keynote speaker is Dr. Hannah Wunsch, a physician, and writer in New York City. She currently works as a Professor and Vice Chair for Research in the Department of Anesthesiology at Weill Cornell Medicine. Her research focuses on the delivery and outcomes of critical care using large databases and has been published in *The Lancet*, *JAMA*, *BMJ* and many specialty journals. Dr. Wunsch is the author of the book ***The Autumn Ghost: How the Battle Against a Polio Epidemic Revolutionized Modern Medical Care***. Her timely presentation entitled ***Lessons in Ventilation from the Past*** is expected to be riveting!

We look forward to seeing you in Nashville, TN!

Best wishes,

A handwritten signature in cursive script, reading "Amanda A. Fox".

Amanda A. Fox, MD, MPH
SCA President, 2025 - 2027

message

from Scientific Program Chairs

Dear Colleagues,

Please join us at the Society of Cardiovascular Anesthesiologists 48th Annual Meeting and Workshops in vibrant Nashville, TN, April 23-26, 2026! Don't miss a first-class educational program and opportunities to congregate with friends and colleagues while surrounded by a vibrant mix of Southern hospitality and world-class music.

Enjoy small group sessions, workshops, and presentations and panel discussions on all the hot topics and developments in our field. The program will address the latest research, as well as clinical controversies in our practice, with experts from the world of cardiology, cardiothoracic surgery, perfusion, critical care medicine, regional anesthesiology, and finance enriching our panel discussions. The workshops are hands-on opportunities to learn cutting edge technology from masters in the field in smaller, more interactive settings. Problem-based learning discussion sessions offer opportunities to learn by working through clinically challenging cases in a focused, small group setting led by experts.

Research focused sessions will have experts presenting and discussing latest trials and cutting-edge work, the work of our SCA members will be presented in the "Best of Meeting" sessions and in abstract presentations. Our Research track will be included in the Annual Meeting and offer high level content for the researchers among us. This includes a Late Breaking Research session, highlighting the work of SCA members, and the Anesthesia and Analgesia workshop taught by journal editors. Echocardiography CME hours will be offered in general sessions and workshops designed for the cardiac anesthesiologist, and the true echo-enthusiasts among us won't want to miss the discussion at the Super Echo session.

As in years past, we have a specific program designed for trainees containing unique sessions geared toward the educational and professional development needs of our medical students, residents, and fellows. This portion of the meeting offers mentoring opportunities and welcomes our newest colleagues into their subspecialty society.

While Nashville will offer plenty of opportunities for visiting with friends and colleagues outside the meeting, we plan to continue expanding in-meeting networking and interactive content. Our SCA Networking Event will offer opportunities to chat with SCA groups (committees, interest groups, councils), meet with vendors, and visit with colleagues in a reception after the first full day of the meeting.

Don't miss out on joining us in Nashville as we come together to share our knowledge and experience in our chosen specialty.

See you there!

Jonathan Ho, MD, FASE, Chair, Scientific Program Committee 2026

Stephanie Ibekwe, MD, MBA, MPH, MS, Vice Chair, Scientific Program Committee 2026

CHECK THIS OUT!

10 THINGS *to do in* NASHVILLE

From iconic music venues to delicious Southern dishes and unique Nashville experiences, here are ten unforgettable activities that are sure to make your highlight reel.

1

Stand Where your Heroes have Stood

Two of Nashville's most iconic establishments, the [Ryman Auditorium](#) and the [Grand Ole Opry](#) have hosted thousands of artists over the past century, and chances are some of your favorite musicians have performed at one or both places. Both the Ryman and the Grand Ole Opry House offer daytime tours where you can sit in the dressing rooms and stand on the stages where everyone from Johnny Cash, Aretha Franklin, Bob Dylan, and Elvis have performed.

Along the tour, hear the fascinating history of The Ryman, which was originally built as a tabernacle in 1897 and became the home to the famous Grand Ole Opry in 1943, where it remained until 1974 when it moved to the [Grand Ole Opry House](#). Today, it is one of the most renowned music venues in the country, hosting big-name musical acts of all genres. Located in the heart of downtown Nashville, after you've taken their daytime tour, snag tickets to a show in the evening.

The Grand Ole Opry, the country's longest-running radio show that is celebrating 100 years this year, still puts on live shows three nights a week. After your tour, attend the show that still takes place three nights a week as a live radio show, just like it has for a century. You'll hear a dozen performers in one show, from country music greats to newcomers on the scene.

Q&A

2:00 PM - 3:30 PM

How Would You Do This Case? Round Table Case Discussions

Moderators: Mariya Geube, MD, FASE and Jennifer Hargrave, DO

Panelists: Nadia Hensley, MD, Michael Mazzeffi, MD, MPH, FASA, Penelope Rampersad, MD and Zhen Yu Michael Tong, MD, MBA

2:00 PM - 2:30 PM

Case Discussion: Functional Mitral Regurgitation Management: MEER or Surgical Approach

Stanton Shernan, MD, FASE, FAHA

2:30 PM - 3:00 PM

Case Discussion: Ready or Not? Curveball Consults for Non-Cardiac Surgical Interventions: Durable Ventricular Assist Device Patient for Posterior Laminectomy

Michael Mazzeffi, MD, MPH, FASA

3:00 PM - 3:30 PM

Case Discussion: Aortic Valve and Aortic Replacement (Hemiarch) in a Jehovah Witness Patient

Nadia Hensley, MD

2:00 PM - 3:30 PM

Human Factors Engineering and Patient Safety in Cardiac Anesthesia: Optimizing Workflow, Communication, and Decision-Making

Moderators: Miklos Kertai, MD, MMHC, PhD and Trevor Sutton, MD, MBA

2:00 PM - 2:20 PM

Human Factors and the Prevention of Medical Errors in Cardiac Surgery

Lida Shaygan, DO

2:20 PM - 2:40 PM

Building a Culture of Safety in the Cardiac Operating Room

Lilibeth Fermin, MD, MBA

2:40 PM - 3:00 PM

Implementation Science in Health Organizations: Agile, CFIR, and Overcoming Barriers

Miklos Kertai, MD, MMHC, PhD

WORKSHOP

2:00 PM - 5:00 PM

3D TEE Workshop

Moderators: Choy Lewis, MD and Nirvik Pal, MD

Faculty: Marie-Eve Chamberland, MD, FRCPC; Matthew Fischer, MD, MS; Kimberly Howard-Quijano, MD; Marco Julien, MD, FRCPC; Joseph Kamassai, MD; Laeben Lester, MD; Sawyer Naze, MD; Aidan Sharkey, MD; and Brett Wakefield, MD

2:00 PM - 2:10 PM

Introduction

2:10 PM - 2:20 PM

3D: Modalities of Acquisition, Advantages, and Disadvantages

Sawyer Naze, MD

2:20 PM - 2:30 PM

How Do I Incorporate 3D for Percutaneous Interventions?

Marco Julien, MD, FRCPC

2:30 PM - 2:40 PM

How Do I Incorporate 3D in the Operating Room?

Sawyer Naze, MD

2:40 PM - 5:00 PM

Breakout Sessions/Stations

Station 1:

3D Mitral (Philips TEE machine) and GE Mitral

Station 2:

3D Tricuspid Valve (Philips TEE and GE)

Station 3:

RV and LV Quantification (Philips and GE)

Station 4:

3D Aortic Valve Assessment (Philips and GE)

Station 5:

Mitral GE and Philips Practice Station

3:30 PM - 4:00 PM

Coffee Break

PLENARY SESSION

4:00 PM - 6:00 PM

Management of Preoperative Anemia - Is It Really That Important?

Moderators: Jacob Raphael, MD, FAHA;
Linda Shore-Lesserson, MD, FAHA, FASE;
and Agnieszka Trzcinka, MD, FASE

4:00 PM - 4:05 PM

Introduction

4:05 PM - 4:25 PM

How Low Should We Go? Physiological Effects of Anemia and Its Impact on Postoperative Surgical Outcomes

C. David Mazer, MD

4:25 PM - 4:45 PM

Perioperative Anemia vs. RBC Transfusion in Cardiac Surgery: Is There a Lesser Evil?

Jenny Kwak, MD, FASE, FASA

4:45 PM - 5:05 PM

Transfusion Targets: Restrictive vs. Liberal Triggers in Cardiac Surgery and Acute MI - Are We Asking the Right Question?

Jacob Raphael, MD, FAHA

5:05 PM - 5:25 PM

My Patient's Postoperative Hemoglobin is Nine: How Important is Postoperative Anemia and Should We Treat it?

Justyna Bartoszko, MD

5:25 PM - 5:45 PM

How Much Will it Cost Us? How to Get the Hospital's Administration Buy-in in Starting a Preoperative Anemia Clinic

Miklos Kertai, MD, MMHC, PhD

5:45 PM - 6:00 PM

Q&A

4:00 PM - 6:00 PM

Welcome Refreshments

Stand in the Hall of Fame Rotunda

Of course, the [Country Music Hall of Fame and Museum](#) is a must-do on everyone's list, and for good reason. Offering a deep dive into country music's rich history with its impressive collection of memorabilia and interactive exhibits, the museum guides visitors through the evolution of country music, highlighting its cultural significance and influence on other musical genres. The heart of the museum is the Hall of Fame Rotunda, where all members of the Country Music Hall of Fame are honored. Designed to symbolize the unity and timelessness of country music, the rotunda evokes a sense of reverence and sacredness where visitors instinctively know not to speak above a whisper as a sign of respect.

Breakfast

PBLDS

6:30 AM - 7:45 AM

Thoracic Anesthesia Symposium and Workshops PBLDs 1 - 8 will be held Thursday, April 23.

Problem-Based Learning Discussions with Breakfast

- **PBLD 9: Anesthetic Considerations in an Obstetric Patient with Sickle Cell Disease and Dilated Aorta; Maternal Cardiac Arrest and Perimortem C-Section**
Ioannis Angelidis, MD, MSPH and Menachem Weiner, MD
- **PBLD 10: Pulmonary HTN in Non-Cardiac Surgery**
Sinead Nyhan, MD and Jochen Steppan, MD, DESA, D.ABA, FAHA, FASA
- **PBLD 11: Robotic Minimally Invasive Cardiac Surgery: Challenges and Benefits** 
Reed Harvey, MD and Kathirvel Subramaniam, MD, MPH
- **PBLD 12: The Role of MCS in Stabilizing Hemodynamics in Cardiogenic Shock Refractory to Medical Therapy**
Yong Peng, MD, PhD
- **PBLD 13: Transposition of Great Arteries: Challenges and Management During Non-Cardiac Surgery**
Andra Duncan, MD, MS, FASE and Asha Singh, MD

GENERAL SESSION

6:45 AM - 9:15 AM

Live Case

Moderators: Kiran Belani, MD, FASE, FACC
and Himani Bhatt, DO, MPA, FASE

7:00 AM - 7:10 AM

Introduction

7:10 AM - 7:25 AM

Patient Selection and Imaging Criteria for M-TEER

Brian Lindman, MD

7:25 AM - 7:40 AM

Clinical Evidence and Outcomes: What Do the M-TEER Trials Tell Us?

Charles Nyman, MBBCh, FASE

7:40 AM - 8:40 AM

Live Case

8:40 AM - 8:55 AM

Impact of Post-Procedural Mitral Gradient on Outcomes

Robert Deegan, MB BCH, PhD, FFARCSI

PLENARY SESSION

7:45 AM - 9:15 AM

Refresher Course Lectures: Aortic Valve Interventions; Transesophageal Echocardiography Landscape; Right Ventricular Physiology and Monitoring, Impact of Mechanical Circulatory Support on Clinical Practice

Moderators: Jonathan Ho, MD, FASE and Stephanie Ibekwe, MD, MBA, MPH, MS

7:45 AM - 7:50 AM

Introduction

7:50 AM - 8:10 AM

Aortic Valve Management

Jacques Neelankavil, MD

8:10 AM - 8:30 AM

Modern Role of TEE in CT Anesthesia

Stanton Shernan, MD, FASE, FAHA

8:30 AM - 8:50 AM

Say Hello to Athena

EXPLORE NASHVILLE'S PARKS

Who is Athena? We're so glad you asked. Athena Parthenos, the goddess of wisdom, stands 42 feet tall inside the Parthenon at [Centennial Park](#). She is the tallest indoor sculpture in the Western World and was created by local artist Alan Lequire (whose studio is just down the road and open to the public.) The Parthenon is the world's only full-scale replica of the ancient Parthenon in Athens. Initially built for the 1897 Centennial Exposition to celebrate Tennessee's 100th anniversary, it was designed to reflect Nashville's intellectual and cultural growth which had earned the city the nickname "Athens of the South." After you tour the Parthenon, enjoy a stroll through Centennial Park. Smack in the middle of downtown, the 132-acre park hosts several festivals throughout the year and is a community gem that includes gardens, a pond, and a large amphitheater.

PLENARY SESSION

7:45 AM - 9:45 AM

Tri to Keep Up! A Crash Course in the Rapidly Evolving Landscape of Tricuspid Valve Evaluation and Intervention

Tear Up Over Fried Chicken

Not the emotional kind of tears, more the “my mouth is burning but I have to hold it together” kind of tears that you get when you bite into Nashville’s famous **hot chicken**. This bold, crispy, and flavor-packed dish has been a Nashville staple for generations. For the real deal, visit Prince’s Hot Chicken Shack, the legendary birthplace of this spicy favorite. Other top spots to try include **Hattie B’s**, Party Fowl, and Pepperfire Hot Chicken, though nearly every restaurant in town puts its own spin on this classic.

TASTE NASHVILLE HOT CHICKEN

Make Your Own Art

Nashville's booming art scene may come as a surprise to first-time visitors, but as a city that fosters creativity of all kinds, Nashville has become an art destination of depth and diversity. The heart of the city's art scene is the [Frist Art Museum](#) housed in a beautiful 1930s Art Deco building downtown. The Frist does not have a permanent collection but instead curates and hosts a diverse lineup of exhibitions, ranging from classical and contemporary art to photography and sculpture. While you're there, pop into Frist ArtQuest, an interactive space designed for kids, families, and art lovers of all ages to create your own piece of art. Other art hubs include [OZ Arts Nashville](#) and the [Wedgewood-Houston district](#), as well as [Cheekwood Estate & Gardens](#). Attend one of the city's monthly [Art Crawls](#), where you can explore multiple galleries in one evening. With its ever-evolving art scene, Nashville provides an enriching cultural experience that is a must for anyone visiting the city.

Stroll Through Bicentennial Mall

Bicentennial Capitol Mall State Park is a scenic and historical park in downtown Nashville, sitting at the base of the Tennessee State Capitol. Spanning 19 acres, this park offers stunning views of the city skyline. Along the path, there is a 1,400 ft. granite wall detailing significant events in Tennessee's history, a splash fountain representing Tennessee's major rivers, a WWII Memorial, and the Carillon Bell Tower consisting of 95 bells that chime every hour to Tennessee-themed music. Across the street is **Nashville's Farmers' Market**, with a food court of regional and international restaurants as well as local products and artisan goods.

Housing Deadline

Program Agenda and Faculty

Agendas are subject to change. As we strive to improve the quality of your educational experience, the SCA may substitute faculty with comparable expertise when necessary.

10

Order the Recession Special at Robert's Western World

You'll feel like a local when you pony up to the bar at [Robert's Western World](#) for their famous "recession special," which includes a bologna sandwich, chips, a moon pie, and pbr. While you're there, take a swing around their dance floor before you hit some of the other famous honky tonks on Lower Broadway, aka [Honky Tonk Highway](#). From staples like [Tootsie's Orchid Lounge](#) to newer spots like Garth Brooks' [Friends in Low Places](#), there's a reason Lower Broadway is world-famous! Great live music is playing all day, every day, with no cover charge. Be sure to support these local musicians and drop a little something in the tip jar on your way out.

Registration Cancellation Information

All registration cancellations and refund requests must be made in writing to info@scahq.org, by Monday, March 23, 2026. A refund of the full conference fee, minus a \$100 administrative fee, will be given for cancellations received by that date. No refunds will be granted for requests postmarked after Monday, March 23, 2026 – all sales are final.

Registrants that provide documentation of a medical emergency/doctor order not to travel are eligible for a refund (less fees) after the cancellation deadline (including following the event). No-shows are not eligible for credit or refund. No refunds will be given for registrations or event add-ons for failure to attend, late arrival or early departure from the meeting. Meeting registration fee and event add-ons are not transferable to another attendee or SCA meeting.

SCA reserves the right to substitute faculty or to cancel or reschedule sessions because of low enrollment or other unforeseen circumstances. If SCA must cancel the entire meeting, registrants will receive full credit or a refund of their paid registration fee. No refunds can be made for lodging, airfare, or any other expenses related to attending the meeting.

Geographical Pricing

SCA is proud to offer geographical pricing to those who work/reside in [one of these countries](#).

Please contact us at nbaus@veritasamc.com for pricing information.
