

ENDOWMENT ANNUAL REPORT 2025

SCA ENDOWMENT

Dear Colleagues,

The SCA exists to advance education, leadership, and research—and it is made possible by individuals who care deeply about this mission.

2025 in Review

The past year marked significant progress for the SCA Endowment, reflecting our members' strong commitment to the Society's future:

- We established a planned giving program, enabling members to include the SCA in their estate planning.
- We successfully launched the Marianne and Michael Cahalan Legacy Circle, ensuring perpetual funding for an annual mid-career research grant.
- We expanded the Kaplan Leadership Development Award to two potential awardees and introduced the Jane Fitch Education Award with its inaugural cycle beginning in 2026. We honored all those who have received leadership, education and research awards with a dedication reception at the Annual Meeting.
- We now update the Donor Honor Roll monthly and offer a concierge experience at the Annual Meeting for donors at levels gold and above.
- We began publishing an annual Endowment Report, providing transparency into how gifts are invested and stewarded with fiscal responsibility.
- We further strengthened our long-standing partnerships with Veritas, our management company, and Modera, our investment firm of more than 20 years—helping ensure thoughtful growth of every donation.

Looking Ahead to 2026

The year ahead promises even greater impact. With your continued support, we will fully launch the Jane Fitch Leadership Award, engage a carefully selected and diverse group of leaders in the award selection process, and expand support for fellows both nationally and internationally.

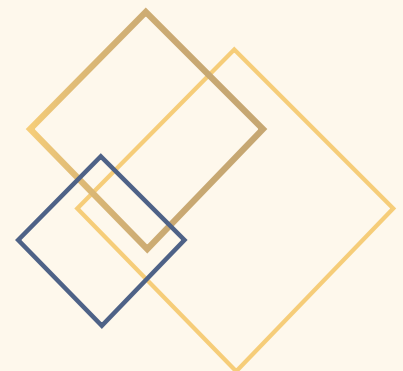

As members of this vibrant and cohesive Society, there will always be meaningful opportunities to give, participate, and celebrate our shared mission.

Thank you again for all that you do to support the SCA. We hope every member will consider making a donation to help power the Society forward.

Warm regards,

ABOUT THE SCA ENDOWMENT FUND

The Society of Cardiovascular Anesthesiologists (SCA) Endowment Fund, created by Members and the Board of Directors, accepts gifts of all sizes to fund programs, projects, and initiatives that advance SCA's mission, supports SCA members and improves patient care.

SCA Endowment Fund supports cutting edge research, educational programs, and the development of resources that enhance patient care.

SCA Endowment Council would like to thank our 2025 contributors

With sincere gratitude, we recognize the individuals listed below whose generosity in 2025 made a meaningful impact. Whether contributing for the first time or continuing a tradition of support, each donor plays a vital role in advancing our mission and strengthening our community.

KAPLAN LEADERSHIP DEVELOPMENT AWARD

The Kaplan Leadership Development Award is supported by the SCA Endowment for SCA members. The mission of this award is to assist cardiothoracic and vascular anesthesiologists in their careers by granting funding to further their focus on leadership opportunities and development through coursework and leadership specific studies.

DISCOVER YOUR GIVING PATH

Support the future of cardiovascular and thoracic anesthesiology through planned giving or by exploring a variety of donation options. By contributing to the SCA Endowment, making a legacy gift, or choosing from diverse options like stock gifts and IRA contributions, you ensure sustained support for our long-term mission. Discover the giving path that best suits your capability to contribute and make a lasting impact in the field of cardiovascular care.

Planned Giving

These gifts — or bequests — are donations that you designate in your will, estate, or trust. There is no minimum gift requirement, and the benefits are many. For example:

- Planned gifts afford you flexibility to provide for your family and support the SCA.
- Certain planned gifts may reduce estate or capital gains taxes.
- Planned gifts need not affect your cash flow during your lifetime.
- Certain types of planned gifts allow you to support the SCA while also providing income for the rest of your life — or a fixed income for a loved one.
- The joy of knowing that your legacy gift will sustain the SCA programs for years to come.

We are honored to work with you to develop a lasting gift to SCA. We have several gift methods to best align with your lifestyle.

Estate Gifts

As you create a plan for the future of your estate, consider naming the SCA in your living trust or including a bequest in your will. You can name either a specific amount or a percentage.

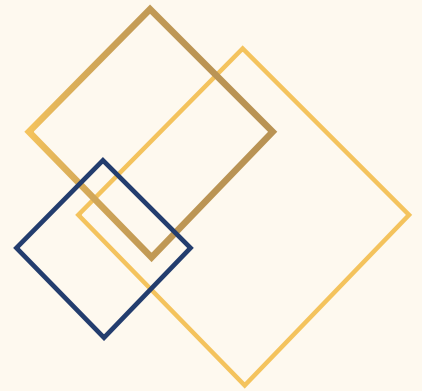

Life Insurance Beneficiary

When choosing a beneficiary for your Life Insurance Policy, consider naming the SCA. This option is especially convenient for our donors with paid-up policies that are no longer needed for family protection.

Retirement Plan

Qualified retirement plans can be left to the SCA. These assets are under less severe taxation when distributed to a charity rather than to an individual. Most IRA's, 403B's, and 401k's are accepted. You can also use your IRA during your lifetime to make donations. A Qualified Charitable Distribution, or QCD, is a method of charitable giving available to those 70 ½ years old or older and allows individuals to gift up to \$108,000 in 2025 from their IRA directly to the SCA.

SUPPORT THE SCA FOR RESEARCH, EDUCATION, AND PATIENT WELL-BEING.

The role of cardiovascular anesthesiologists is crucial in treating complex heart conditions and patients who are critically ill due to cardiovascular disease, especially as surgeries become more advanced and the population ages. The SCA leads globally in this field, advancing treatment through research, care, and knowledge. Your support helps fund critical research and education to improve patient care in cardiovascular disease.

SCA Endowment Fund - Restricted

This fund is a restricted fund created in 2018 by the former SCA Foundation upon its dissolution. This fund was established to bestow to the SCA, in a Deed of Gift, the assets of the Foundation. Gifts to this fund are restricted and may only be used in accordance with the intent of the original Deed of Gift.

SCA Endowment Fund - Unrestricted

This fund was created in 2024 by the Board of Directors to accept gifts of all sizes directed towards funding programs offered by the organization. These funds are unrestricted and may be used by the SCA to fund programs, projects, and services in advancing the mission of the organization.

Michael K. Cahalan Legacy Circle – Unrestricted (Research)

This fund was created by the SCA Board of Directors to honor Michael K. Cahalan. Dr. Cahalan pioneered the development of transesophageal echocardiography for both adult and pediatric cardiac surgery. This Legacy Circle annually funds research projects for mid-career cardiovascular and thoracic anesthesiologists.

Kaplan Leadership Development Award

The Kaplan Leadership Development Award is designed to assist cardiothoracic and vascular anesthesiologists in their career by granting funding to further their leadership development through coursework and leadership-specific studies.

Jane C. K. Fitch Education Award

The Jane C. K. Fitch Education Award supports high-quality educational initiatives in cardiovascular anesthesiology. It serves as a seed grant for small pilot or proof-of-concept projects that benefit all members of the Society of Cardiovascular Anesthesiologists (SCA).
