

Enhanced Recovery After Thoracic Surgery (ERATS) Sub-Committee

Committee Charge

The mission of the SCA ERATS Sub-Committee is to help guide the successful establishment of Enhanced Recovery after Thoracic Surgery programs.

The goal of the SCA ERATS Sub-Committee is to collect and disseminate current literature, guidelines, and expert opinion on principles necessary to implement an Enhanced Recovery after Thoracic Surgery (ERATS) program across a wide range of practice settings, from community-based hospitals to large academic centers.
